There weren't any topics that were new to me, I am familiar with them all.

Sub-Task

Group: Reflection

Task #1: Reflect on the following topics

Sub Task #2: What concepts/topics were you already familiar with?

## ≡ Task Response Prompt

*Mention specific concepts/topics*

Response:

I am familiar with all of them but out of all these I've definitely seen outputs, data types, variables, strings, and operators the most out of all the topics.

## ≡ Task Response Prompt

*At least a few reasonable sentences.*

Response:

I often make mistakes when it comes to Arrays and array lists, especially multidimensional arrays. There are also occasions when I get different types of loops mixed up with one another.
